REMARKS/ARGUMENTS

This Preliminary Amendment is filed in order to facilitate processing of the aboveidentified application. In particular, as shown in Figure 9, each compression block CL includes a
plurality of sound units SU (encrypted units). Nothing in the prior art shows, teaches or suggests
encrypting each compression block as a plurality of encrypted units as now claimed in claims 1,
8, 13 and 19-21. Rather, *Yoshiura*, et al. merely discloses compressing symbols until the
compressed data reaches a block size and then encrypting the entire block as one unit.

Thus, it now appears that the application is in condition for a reconsideration and allowance. Reconsideration and allowance at an early date are respectfully requested.
